

LING WANG

🎓 Postdoc 🏛️ Department of Decision Sciences and BIDSa, Bocconi University
✉️ ling.wang@unibocconi.it & lwmath@foxmail.com 🌐 <https://lwmath.github.io/>

PERSONAL INFORMATION

Gender	Male	Citizenship	Chinese Citizen
Date of Birth	July 18, 1998	Marital status	Single
Place of Birth	Chongqing, China		

RESEARCH INTERESTS

Geometric Analysis & Nonlinear PDEs Geometric Measure Theory Minimal Surfaces

POSITIONS

Department of Decision Sciences and BIDSa, Bocconi University	Milan, Italy
<i>Postdoctoral Research Fellow</i>	2025.9 – 2027.8
• Supervisor: Prof. Antonio De Rosa	

EDUCATION

School of Mathematical Science, Peking University	Beijing, China
<i>Ph.D. in Pure Mathematics</i>	2020.9 – 2025.6
• Thesis: Monge-Ampère type fourth-order equations and applications	
• Supervisor: Prof. Bin Zhou	
Beijing International Center for Mathematical Research, Peking University	Beijing, China
<i>Visiting student, Pure Mathematics</i>	2020.2 – 2020.6
School of Mathematical Science, Beijing Normal University	Beijing, China
<i>B.S. in Mathematics and Applied Mathematics</i>	2016.9 – 2020.6
• Thesis: A Study on the Depth Dependence of Inclusions in Inverse Problems	

PUBLICATIONS AND PREPRINTS

- [11] Ling Wang. *Interior $C^{1,\alpha}$ estimates for the linearized Monge–Ampère equation in two dimensions*. Preprint.
- [10] Antonio De Rosa, Aria Halavati, Ling Wang. *Min-max construction of anisotropic minimal surfaces with genus bound*. Preprint.
- [9] Guoqing Cui, Ling Wang, Bin Zhou. *Potential and Hölder estimates for the linearized Monge-Ampère equation*. Preprint.
- [8] Wenkui Du, Ling Wang, Yang Yang. *Flat level sets of Allen-Cahn equation in half-space*. Preprint.
- [7] Ling Wang, Bin Zhou. *The partial Legendre transform in Monge-Ampère equations*. **Surveys in Geometric Analysis 2024**.
- [6] Ling Wang. *Interior Hölder regularity of the linearized Monge-Ampère equation*. **Calculus of Variations and Partial Differential Equations**, 64 (2025), no. 1, Paper No. 17.
- [5] Ling Wang, Bin Zhou. *$C^{1,\alpha}$ regularity of variational problems with a convexity constraint*. Preprint.
- [4] Ling Wang, Bin Zhou. *Liouville theorems for a class of degenerate or singular Monge-Ampère equations*. **Journal of Geometric Analysis**, 34 (2024), no. 11, Paper No. 352.
- [3] Young Ho Kim, Nam Quang Le, Ling Wang, Bin Zhou. *Singular Abreu equations and linearized Monge-Ampère equations with drifts*. **Journal of the European Mathematical Society**, 28 (2026), no. 9, 4105-4148.

- [2] Ling Wang, Bin Zhou. *Interior estimates for Monge-Ampère type fourth order equations*. **Revista Matemática Iberoamericana**, 39 (2023), no. 5, 1895–1923.
- [1] Haigang Li, Jenn-Nan Wang, Ling Wang. *Refined stability estimates in electrical impedance tomography with multi-layer structure*. **Inverse Problems and Imaging**, 16 (2022), no. 1, 229–249.

AWARDS & HONORS

- **Outstanding Doctoral Dissertation**, Peking University 2025
Outstanding Graduates, Peking University
Excellent Papers by Young Researchers, Beijing Mathematical Society
- **China National Scholarship**, Ministry of Education of the People's Republic of China 2024
Presidential Scholarship, Peking University
Outstanding Research Award, Peking University
Grand Prize, LuoJia Ph.D. Forum in Mathematics, Wuhan University
- **Presidential Scholarship**, Peking University 2023
Merit Student, Peking University
- **Exceptional Award for Academic Innovation**, Peking University 2022
- **Outstanding Graduates**, Beijing Normal University 2020
The First Prize Scholarship, Beijing Normal University

CONFERENCE TALKS

3. **Title:** *Monge-Ampère type equations in two dimensions* June 29-July 5, 2025
Workshop on Geometric Analysis 2025 (30 minutes), Research Center for Mathematics and Interdisciplinary Sciences of Shandong University, Qingdao, China
2. **Title:** *Flat level sets of Allen-Cahn equation in half-space* March 15, 2025
Workshop on Geometric Analysis and Ricci Flow 2025, Institute for Theoretical Sciences of Westlake University, Hangzhou, China
1. **Title:** *Singular Abreu equations and linearized Monge-Ampère equations with drifts* July 21-27, 2024
Workshop on Geometric Analysis 2024 (30 minutes), School of Mathematical Sciences of Inner Mongolia University, Hohhot, China

SEMINAR & COLLOQUIUM TALKS

9. **Title:** *A revisit to the De Giorgi conjecture: Savin's proof and applications* March 11, 2026
Geometric Analysis Seminar (online), Beijing International Center for Mathematical Research of Peking University, Beijing, China
8. **Title:** *About me and my research* October 29, 2025
PostDoctoral Research Forum, Department of Decision Sciences & Department of Computing Sciences of Bocconi University, Milan, Italy
7. **Title:** *Bernstein-type theorems for geometric PDEs* July 29, 2025
Geometric Analysis seminar, Institute for Theoretical Sciences of Westlake University, Hangzhou, China
6. **Title:** *Interior estimates for the Monge-Ampère type fourth-order equations* May 6, 2025
Mathematics Colloquium, School of Mathematical Sciences of Nankai University, Tianjin, China
5. **Title:** *A revisit to the De Giorgi conjecture: Savin's proof and applications* April 21, 2025
Geometry&Topology seminar, Institute of Mathematical Sciences of ShanghaiTech University, Shanghai, China
4. **Title:** *Partial Legendre transform: two-dimensional and higher-dimensional cases* April 17, 2025
Geometry&Analysis seminar, School of Mathematical Sciences of Shanghai Jiao Tong University, Shanghai, China

3. **Title:** *Bernstein-type theorems for geometric PDEs* April 16, 2025
 Mathematics Colloquium, School of Mathematical Sciences of Fudan University, Shanghai, China
2. **Title:** *Interior estimates for the Monge-Ampère type fourth order equations* March 24, 2024
 Ph.D. Mathematics Forum (13 minutes), School of Mathematics and Statistics of Wuhan University, Wuhan, China
1. **Title:** *A revisit to affine Bernstein problem* March 30, 2022
 Geometric PDE seminar, Academy of Mathematics and Systems Science of the Chinese Academy of Sciences, Beijing, China

TEACHING EXPERIENCE

Peking University	
<i>Teaching assistant</i>	
• Advanced math B	Spring 2024
• Mathematical analysis III	Fall 2023
• Mathematical analysis II	Spring 2023
• Mathematical analysis I	Fall 2022
• Arithmetic of elliptic curves	Spring 2022
Diophantine approximation	
• Mathematical analysis I	Fall 2021
• Functional analysis	Spring 2021
• Advanced math C	Fall 2020

ACADEMIC SERVICES

Referee for several journals including: *Pure and Applied Mathematics Quarterly*
